

Rishav Kumar

Full Stack Software Engineer

rishav9707@gmail.com | linkedin.com/in/rishav27 | github.com/Rishav-27 | rishavdev.in
Jamshedpur, Jharkhand, India (open to relocate)

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 1+ year shipping production SaaS in React, Next.js, TypeScript and Node.js. Own frontend architecture, REST API integration and PostgreSQL data modelling across two live products at WebbyWolf Innovations — an AI answer-engine optimization platform and a 250,000-listing publisher marketplace. Strong in performance optimization, SSR and caching, responsive design, accessibility and SEO, delivered in Agile/Scrum with code review and CI/CD.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript (ES6+), Python, Java, C++, SQL, HTML5, CSS3
Frontend	React, Next.js (App Router, SSR, ISR), Redux, Tailwind CSS, Framer Motion, GSAP, React Native, Electron, Responsive Design, Accessibility, SEO, Performance Optimization
Backend & Data	Node.js, Express, REST APIs, WebSockets, JWT Auth, System Design, PostgreSQL, Supabase, MongoDB, SQLite, Schema Design, Row-Level Security, Prisma (familiar)
Tools	Git, GitHub, CI/CD, Vercel, Docker, Postman, ESLint, Vitest, Agile, Scrum, Code Review, Unit & Integration Testing

PROFESSIONAL EXPERIENCE

Software Engineer — WebbyWolf Innovations Jul 2025 – Present · Remote

- Owned frontend architecture for Linkova (Next.js App Router, TypeScript, Tailwind): faceted search over 250,000+ publishers in 150+ countries, world-coverage map, TipTap editor and EN/DE localisation.
- Built AeoiX server-rendered dashboards for daily ranking, share-of-voice and sentiment across 8 AI answer engines, plus the actions kanban.
- Built a reusable component library adopted across both products, cutting build time for new features by approximately 30%.
- Integrated REST APIs and Supabase auth, sessions and real-time data; drove API contract design and PostgreSQL schema modelling.
- Applied SSR, route-level caching and bundle optimization to lift Core Web Vitals; shipped in Agile sprints with code review and CI/CD.

Web3 Development Intern — MetaCrafters Jun 2023 – Sep 2023 · Remote

- Authored, tested and deployed Solidity smart contracts on EVM test networks; built React dApp frontends reading and writing on-chain state.
- Earned a \$175 merit scholarship and selection into the MetaCrafters talent collective on completing the blockchain engineering track.

PROJECTS

Huddle — Post-Quantum Encrypted Messenger (own product) | Source | Case study

Rust · Axum · Kotlin · Jetpack Compose · SwiftUI · libsignal

- Built native Android (Kotlin/Compose) and iOS (SwiftUI) clients plus a Rust/Axum relay with delete-on-ack device mailboxes.
- Implemented Signal Protocol with PQXDH (Kyber-1024) and Double Ratchet, message padding and encrypted backups.

LedgerX — Offline GST Billing & Accounting Desktop App (own product) | Source | Case study

Electron · React · TypeScript · SQLite · Tailwind CSS · Vitest

- Built a double-entry accounting engine on SQLite with GST invoicing (CGST/SGST/IGST), trial balance, P&L and balance sheet.
- Generated GSTR-1/GSTR-3B returns, weighted-average inventory valuation and a versioned audit trail, tested with Vitest.

CVora — AI Resume Builder (own product) | Live | Case study

Next.js · TypeScript · Supabase · AI SDK · Puppeteer · Tailwind CSS

- Architected a live form-to-preview editor with an AI rewrite that tailors bullets and keywords to a job description.
- Implemented ATS match scoring, version history per rewrite and pixel-accurate PDF export via Puppeteer.

Gym Desk — Offline Gym Management App, iOS/Android (own product) | Source | Case study

Expo · React Native · TypeScript · SQLite · Expo Router

- Built offline-first member, plan and fee management on SQLite with renewals, partial payments and WhatsApp reminders.
- Implemented QR attendance with a 60-second repeat-scan guard, live in-gym counts and CSV export.

Also built: RoleDock job tracker (React, Capacitor) · TradeVerse real-time trading (React, Node.js, WebSockets) · Real Estate Marketplace (Next.js, Supabase) · MultiLangDetect audio CNN (Python, TensorFlow).

EDUCATION

B.E. Computer Science & Engineering — Chandigarh University, Mohali, Punjab · CGPA 7.43/10 2021 – 2025

Class XII (PCM) — Valley View School, Jamshedpur · 70% 2020 – 2021

Class X — Ramakrishna Mission English School, Jamshedpur · 76.4% 2018 – 2019

CERTIFICATIONS & ACHIEVEMENTS

- \$175 Blockchain Development Scholarship and Talent Collective selection, MetaCrafters (2023) · Ethical Hacking Bootcamp, Udemy (2022).
- Shipped 7 full-stack products end to end — 4 live in production, 3 MVPs in active development.
